RELEVANT EXPERIENCE

FULL STACK DEVELOPER @ JSS Mahavidyapeetha
April 2021 Mysore, Karnataka

- Developed and deployed mobile application to handle news and notifications between all JSS institutions. **(view here)**
- Tech stack: MongoDB, Express, Flutter, Node.js .

PROJECTS

MY HOSTEL APP
- Developed and implemented in college hostels, used by 200+ students and staff.
- Tech stack: HTML, CSS, JS, MongoDB, Express, Node.js.

FLUTTER APPS (TASTO, ATMO)
- Tasto is an app to generate similar items under same genre of books, movies, authors, music etc. Favorites of the user can be cashed for further references.
- Atmo picks the coordinate of the device, tells weather and air quality of the location and warns on harsh conditions.

THE VOICEPAD
- Created with intention to help students write all assignments and online exams using the website.
- Browser's inbuilt Speech Recognition & Speech Synthesis api used.
